

Our aim is to make doing business with us as easy as possible. The same goes for our billing statement.

We want to make sure you can quickly and easily find the information you care about most on the first page. Then, if you want to dive a little deeper into the details, we include more information on the following pages.

How do we know what our customers care about most? Simple. We asked. We surveyed 1,000 American Water customers to learn what they liked, didn't like and felt was most important. This feedback helped us streamline the water bill, so it's simpler and easier to understand. Here's a quick overview of what you'll find.

All of our service personnel wear logoed clothing, drive logoed vehicles and have company-issued photo ID badges. Plus, we never collect money or credit card information from customers in the field. If you suspect an imposter is at your door, don't allow him or her in and call us to confirm it's our service person.

We have an exceptional track record when it comes to water quality and drinking water regulatory compliance. We perform millions of tests each year for about 100 regulated contaminants. Plus, we have access to American Water's Central Laboratory, which conducts sophisticated drinking water testing and analysis.
